Versatile protection screen

The Pathoban screen from Receptek is a sleek and versatile infection prevention screen.

It has been designed to fit any desk and can also be used as a floor-standing sneeze screen solution adapting to the needs of your workplace.

Pathoban screens have been created to offer an attractive slimline profile creating a robust alternative to flimsy and non aesthetically pleasing acrylic screens.

Boasting a patented Aluminium extruding frame which is supplied in an Anodised aluminium finish that will blend in with your workspace and branding requirements.

This permanent screening solution offers a hygienic wipe-clean finish and is built to accommodate a choice of 6mm or 10mm safety glass panels, creating a tough and sturdy screen that will integrate into any space, providing a seamless protective screen that can be retrofitted to any workplace.
